

COLLABORATION OF
DATAROCKET & ADWEKO

DATAROCKET®

ADWEKO

ITS people's business.

TOGETHER, WE TAKE YOUR COMPANY'S DATA CULTURE TO NEW HEIGHTS

Regardless of your starting point, ADWEKO's consulting expertise and the DATAROCKET software solutions will enable your company to quickly adopt data-driven practices and gain a significant competitive advantage.

With a perfect synergy between ADWEKO's technical expertise and market knowledge and DATAROCKET's advanced software solutions for Master Data Management & Data Governance, you can enjoy the best of both worlds.

What's even better? You'll receive comprehensive services from a single source, accompanied by an experienced and competent contact person who will always be at your side.

Together, we'll seamlessly guide you through the entire process, from understanding your unique business requirements to implementing and customizing an optimal system to providing ongoing application support and maintenance. Whether you're new to MDM implementation or looking for a professional and sustainable data governance solution, you can rest assured that all your questions will be answered.

By leveraging our combined expertise and extensive experience, you'll not only achieve your goals but also unlock the next level of the digital transformation!

ADWEKO

ADWEKO is a consulting company for analytical IT solutions.

Since its foundation in 2008, ADWEKO has employed more than 200 people. Our experts specialize in a portfolio that includes consulting services, managed services, and software development.

We see ourselves as a trusted advisor and advise our customers objectively. Whether in the evaluation, conception, or realization phase of your projects, we pass our experience and our field-tested solutions on to our customers – in a transparent, honest, and reliable manner.

In order to visibly benefit from "data," we at ADWEKO can support you in setting up sustainable, enterprise-wide data governance, including the implementation of data quality rules and reports as well as the customizing of metadata management tools.
